Venue: 13-14 Aungier Street, Dublin 2

*Currently accepting applications for programmes commencing
September 2012 including:*

MSc Information & Library Management
Chartered Institute of Library & Information Professionals (CILIP)
accredited

Dublin Business School (DBS) is Ireland's largest independent third level institution with a student population of more than 9,000 and the potential to deliver approximately 100 accredited programmes at both undergraduate and postgraduate level. We would like to take this opportunity to inform you of the MSc Information & Library Management postgraduate programme commencing September 2012.

Programme Overview

The MSc Information & Library Management is a level 9 Masters Degree, jointly awarded by the Higher Education & Training Awards Council (HETAC) and Liverpool John Moore's University (LJMU). It is accredited by the Chartered Institute of Library & Information Professionals (CILIP), a leading internationally recognised professional body for librarians, information specialists and knowledge managers.

The MSc is offered on a one year full-time and 2 year part-time basis to graduates of all disciplines. For part-time students, during each semester, students are typically required to attend lectures on two evenings per week and occasional weekend workshops.

The Master's programme is designed to give students a thorough overview of professional and academic developments in the information & library sector. The programme provides a recognised professional qualification to those wishing to establish careers in the rapidly expanding information and library sector in Ireland and abroad. The programme also provides those already working in the information or library sector with the opportunity to obtain a recognised professional qualification that will allow them to work at a professional grade. The programme content is designed to equip students with both practical and academic skills required to manage information services and resources within the information and library profession.

Work Experience

As part of the MSc Information & Library Management at Dublin Business School and in order to meet CILIP professional requirements, a three week professional placement will take place between semesters one and two for full-time students who do not have prior library experience. Part-time students can complete their placement between year one and year two. Placements are organised through the DBS Employer Liaison Officer in a variety of organisations ranging from corporate information centres to academic and specialist libraries.

Entry Requirements

For admission purposes, applicants must hold a minimum Second Class Honours Degree (2.2) from a recognised third level institution.

We are currently accepting applications for all programmes commencing in September 2011 and you can apply online at <http://www.dbs.ie/ApplyOnline/ApplicationForm/tabid/266/Default.aspx>

Career Opportunities

Graduates can successfully take up professional posts in academic and public libraries. They also secure professional posts in more specialised libraries such as legal, medical, government and corporate libraries. Graduates also find employment outside of libraries in a wide range of jobs within the corporate sector as knowledge managers, information managers, records managers and computer, data and information systems professionals.

Please be advised that we are holding a postgraduate Open Evening in our Aungier Street building on Tuesday 13th March from 5-7pm. The Open Evening is an ideal opportunity for you to meet both the Admissions and Academic staff as well as view the facilities of the College.

Should you have any further queries or would like additional information please do not hesitate to contact the Admissions Office on **01 4177500** or by emailing **admissions@dbs.ie**
